VOL.6 NO.2 | 2026

Editorial Team

Editor in Chief

Hamzah Alaidaros, Al-Ahgaff University, Mukalla, Yemen

Managing Editor

Abdurokhim, Politeknik Siber Cerdika Internasional, Indonesia

Editorial Boards

Taufik Ridwan, Institut Agama Islam Bunga Bangsa Cirebon, Indonesia

Dayana Jalaludin, University Sains Malaysia, Malaysia

Shi Yin, Hebei Agricultural University, China

Sinoda Kisno, Bogor Agricultural University, Indonesia

Neeta P.Kulkarni, SVERI's College of Engineering, Pandharpur, India

Olubiyi, Timilehin Olasoji, West Midlands Open University Lagos State Nigeria

Otong Saeful Bahri, Universitas Muhadi Setiabudi Brebes, Indonesia

Christian Emeka Okafor, Nnamdi Azikiwe University, Awka, Nigeria

Roymon Panjaitan, Universitas Dian Nuswantoro, Indonesia

Muhammad Iqbal, National Cheng Kung University, China

Mohd Javaid, Jamia Millia Islamia New Delhi, India

Ariyani Noviantari, National Institute of Health Research and Development, Indonesia

Nugroho Arif Sudibyo, Universiats Duta Bangsa, Indonesia

Faezeh Borhani, Tarbiat Modares University, Iran

Yevhen Leheza, University of Customs and Finance, Ukraine

Language Advisor

Juwintan, Institut Pendidikan Bahasa Invada Cirebon, Indonesia

Eva Utami D, Institut Pendidikan Bahasa Invada Cirebon, Indonesia

Technical Team

Ade Bani Riyan, STMIK IKMI Cirebon, Indonesia

Abdul Robi Padri, STMIK IKMI Cirebon, Indonesia

Articles

The Relationship Among Perceived Transformational Leadership, Work Motivation, and Individual Performance: A Study at PT Jakarta Railway

 Annisa Arnindita Indonesia , Institut Teknologi Bandung, Indonesia

 1763-1778

 Achmad Fajar Hendarman Indonesia , Institut Teknologi Bandung, Indonesia

 Abstract : 3

 DOI : 10.59188/eduvest.v6i2.52431

The Role of Influencer Marketing on Tiktok in Shaping Online Shopping Trends: Contribution to Accelerating the Development of Indonesia's Digital Economy

 Dwi Winahyo Sutrisna Indonesia , Universitas Borobudur

 1756-1762

 Abstract : 15

 DOI : 10.59188/eduvest.v6i2.52785

Financial Health Indicators and Organizational Transformation Strategies: A Comprehensive Multi-Model Analysis Through Systematic Literature Review of PT NPLC's Performance Evolution 2015-2024

 Ayu Prabandari Indonesia , Insitut Teknologi Bandung, Indonesia

 3069-3081

 Ana Noveria Indonesia , Insitut Teknologi Bandung, Indonesia

 Abstract : 5 DOI : 10.59188/eduvest.v6i2.52945

The Relationship between Cariogenic Food Consumption and Tooth Brushing Habits to Dental Caries in 4th, 5th and 6th Grade Students at SDN 1 Cikulur, Lebak Banten Regency.

 **Weny Martalinda** Indonesia , Universitas MH Thamrin 1635-1649 **Nur Asniati Djaali** Indonesia , Universitas MH Thamrin, Indonesia **Brian Sri Prahastuti** Indonesia , Universitas MH Thamrin, Indonesia Abstract : 9 DOI : 10.59188/eduvest.v6i2.52277

Enhancing Telecommunication Infrastructure Performance Through Dynamic Capabilities: The Mediating Roles of GRC Implementation and Artificial Inteligent Adoption

 **Tri Haryanto** Indonesia , Universitas Pendidikan Indonesia 1327-1341 **Alfira Sofia** Indonesia , Universitas Pendidikan Indonesia Abstract : 3 DOI : 10.59188/eduvest.v6i2.52572

Self-Harming Behavior Among Students in the Medical Program at Yarsi University and Its Review From an Islamic Perspective

 **Fudia Zalza Nabilla** Indonesia , Universitas YARSI, Indonesia 3053-3059 **Citra Fitri Agustina** Indonesia , Universitas YARSI, Indonesia **Karimulloh Karimulloh** Indonesia , Universitas YARSI, Indonesia **Miranti Pusparini** Indonesia , Universitas YARSI, Indonesia Abstract : 7 DOI : 10.59188/eduvest.v6i2.52879

Critical Analysis of Toll Road Investment Through A Systematic Literature Review Approach: Trends, Challenges, and Opportunities

 **Rio Rizqi Septiawan** Indonesia , Universitas Tarumanagara 1463-1477 **Oei Fuk Jin** Indonesia , Universitas Tarumanagara Abstract : 2

PDF

DOI : 10.59188/eduvest.v6i2.52393

From Da'Wah to Economic Empowerment: The Dialectics of Mosque-Based Digital Media Utilization in Strengthening the Community Economy

Alfiera Meutia Indonesia , Universitas PTIQ Jakarta, Indonesia

1977-1984

Abstract : 4

PDF

DOI : 10.59188/eduvest.v6i2.52775

The Mechanism of Word of Mouth in the Transformation of Strategic Capabilities Into Competitive Advantages of Excellent Private Universities the Role of Word of Mouth as a Conversion Mechanism in the Digital Age (Parsimonious Model)

Petiana Indriati Indonesia , Universitas Pancasila, Indonesia

3043-3052

Sri Widyastuti Indonesia , Universitas Pancasila

Zulkifli Zulkifli Indonesia , Universitas Pancasila

Abstract : 4

PDF

DOI : 10.59188/eduvest.v6i2.52936

Excess Power Management for Industrires in Remote Areas: A Case Study of PT Pertamina EP Cepu - Donggi Matindok Field

Firmansyahrullah Firmansyahrullah Indonesia , Institut Teknologi Bandung

3177-3190

Abstract : 1

PDF

DOI : 10.59188/eduvest.v6i2.52254

Profiling Chemical Literacy and 21st Century Skills: Efforts to Develop Effective Chemistry Learning Strategies in Public Schools

Laila Naufi Rachma Indonesia , Universitas Negeri Yogyakarta, Indonesia.

3143-3154

A.K Prodjosantoso Indonesia , Universitas Negeri Yogyakarta, Indonesia

Abstract : 4

PDF

DOI : 10.59188/eduvest.v6i2.52542

The Effect of Non-Performing Loans (NPL) and Operational Costs to Operating Income (BOPO) on Core Capital with Return on Assets (ROA) as a Mediating Variable in Rural Banks (BPR) in the East Bekasi Region for the Period of 2019-2024

**Cecep Taofiqurrochman** Indonesia , Universitas Ekuitas Indonesia, Indonesia

1787-1807

**Puji Rahayu** Indonesia , Universitas Ekuitas Indonesia, Indonesia**Ligardi Purnama Hasyim** Indonesia , Universitas Ekuitas Indonesia, Indonesia

Abstract : 0

DOI : 10.59188/eduvest.v6i2.52846

Institutional Pressures in IKPA Implementation at the Ministry of State Secretariat

**Aryanto Aji** Indonesia , Kementerian Sekretariat Negara

3075-3090

**Desti Fitriani** Indonesia , Universitas Indonesia

Abstract : 6

DOI : 10.59188/eduvest.v6i2.52385

Genius Loci European Area of Old City of Surabaya: Challenges and Opportunities for Development (Literature Study)

**Afini Nur Fajriyah** Indonesia , Universitas Diponegoro

1779-1786

**Suzanna Ratih Sari** Indonesia , Universitas Diponegoro

Abstract : 2

DOI : 10.59188/eduvest.v6i2.52759

International Trade Law as an Instrument of Global Economic Integration: A Normative Study of the Role of the World Trade Organization

**Indra Setiawan** Indonesia , Sekolah Tinggi Ilmu Hukum Adhyaksa, Indonesia

2074-2082

**Zul Karnen** Indonesia , Sekolah Tinggi Ilmu Hukum Adhyaksa, Indonesia

Abstract : 3

DOI : 10.59188/eduvest.v6i2.52931

Navigating Digital Challenges: The Role of Self-Efficacy in Coping with Technostress in Remote Regions

**Christy Kartini Tonoro** Indonesia , Universitas Multimedia Nusantara, Indonesia

1909-1918

**Prio Utomo** Indonesia , Universitas Multimedia Nusantara, Indonesia

Abstract : 3

DOI : 10.59188/eduvest.v6i2.52244

A Knowledge-Based Performance Management System Framework: Case Study in The Medical Device Manufacturing Sector

 **A. Rizky Aulia Utami** Indonesia , Institut Teknologi Bandung, Indonesia

 2116-2131

 **Dermawan Wibisono** Indonesia , Institut Teknologi Bandung, Indonesia

 Abstract : 2

 PDF

 DOI : 10.59188/eduvest.v6i2.52529

Self-Harm Behavior Among Medical Profession Students at YARSI University and its Review from an Islamic Perspective

 **Animas Arum Kholifah Hartono** Indonesia , Universitas YARSI, Indonesia

 3191-3196

 **Citra Fitri Agustina** Indonesia , Universitas YARSI, Indonesia

 **Karimulloh Karimulloh** Indonesia , Universitas YARSI, Indonesia

 **Miranti Pusparini** Indonesia , Universitas YARSI, Indonesia

 Abstract : 3

 PDF

 DOI : 10.59188/eduvest.v6i2.52827

Corporate Social Responsibility and Corporate Governance: A Bibliometric Analysis Study

 **Ervina Dian Ayu Kencana** Indonesia , Universitas Muhammadiyah Yogyakarta, Indonesia  3060-3074

 **Arni Surwanti** Indonesia , Universitas Muhammadiyah Yogyakarta, Indonesia

 Abstract : 5

 PDF

 DOI : 10.59188/eduvest.v6i2.52329

Silat Training as a Medium for Child Character Formation

 **Annisa Nur Awaliyah** Indonesia , Universitas Pendidikan Indonesia

 2040-2045

 **Susilawati Susilawati** Indonesia , Universitas Pendidikan Indonesia

 **Tomi Efendi** Indonesia , Universitas Pendidikan Indonesia

 Abstract : 3

 PDF

 DOI : 10.59188/eduvest.v6i2.52734

Nurses' Role Ambiguity: A Scoping Review

 **Sekar Putri Kirana** Indonesia , Universitas Diponegoro

 1897-1908

 **Yuliani Setyaningsih** Indonesia , Universitas Diponegoro

 **Chriswardani Suryawati** Indonesia , Universitas Diponegoro

 Abstract : 16

 DOI : 10.59188/eduvest.v6i2.52918

From Try-On To Buy-On: Augmented Reality (AR)'S Effects on Attitudes and Purchase Intention In Cosmetics

 **Dewi Fatimah Azzahra** Indonesia , Bina Nusantara University

 1985-1999

 **Moira Katja Kabullah Nugraha** Indonesia , Bina Nusantara University

 **Amalia E. Maulana** Indonesia , Bina Nusantara University

 Abstract : 6

 DOI : 10.59188/eduvest.v6i2.52218

Integration of Coding and Artificial Intelligence Based on Tri-N to Enhance Learning Outcomes in Science and Social Studies for Elementary School Students

 **Lukman Setiawan** Indonesia , Pendidikan Dasar Dinas Pendidikan Kab. Bandung Barat

 3128-3142

 **Akbar Al Masjid** Indonesia , Universitas Sarjanawiyata Tamansiswa

 **Ana Fitrotun Nisa** Indonesia , Universitas Sarjanawiyata Tamansiswa

 **Elyas Djufri** Indonesia , Universitas Sarjanawiyata Tamansiswa

 Abstract : 4

 DOI : 10.59188/eduvest.v6i2.52512

The Influence of Credit Approval Policy Through the 5C Principle (Character, Capacity, Capital, Collateral, Condition of Economy) on Credit Asset Quality and Its Implications on NPL (Non-Performing Loan) Level PT. BPR YSL Bandung

 **Teti Ofianti** Indonesia , Universitas Ekuitas Indonesia

 1269-1284

 **Tatang S Herisman** Indonesia , Universitas Ekuitas Indonesia

 **Cecep Taofiqurrochman** Indonesia , Universitas Ekuitas Indonesia

 Abstract : 9

 DOI : 10.59188/eduvest.v6i2.52813

Validity And Reliability Of Parents' Knowledge And Attitudes Toward Hearing Impairment In Children Questionnaire Adaptation In Bahasa Indonesia

**Annisa Nurul Khakimah** Indonesia , Universitas Sebelas Maret

1492-1500

**Dewi Pratiwi** Indonesia , Universitas Sebelas Maret**Novi Primadewi** Indonesia , Universitas Sebelas Maret

Abstract : 3

DOI : 10.59188/eduvest.v6i2.52312

Organizational and Strategy Impact Evaluation of CRM Implementation at Statistics Indonesia

**Geri Yesa Ermawan** Indonesia , Universitas Indonesia, Indonesia

2955-2971

**Achmad Nizar Hidayanto** Indonesia , Universitas Indonesia, Indonesia**Hari Prasetyo Tri Wicaksono** Indonesia , Universitas Indonesia, Indonesia

Abstract : 7

DOI : 10.59188/eduvest.v6i2.52671

Assessing the Impact of Unresolved Waste Management on Human Capital Development in Indonesia: An Empirical Analysis

**Alice Erni Husein** Indonesia , Universitas Putera Batam

3016-3023

Abstract : 4

DOI : 10.59188/eduvest.v6i2.52913

Factors in Improving the Safety of Railway Level Crossing Infrastructure in Indonesia

**Kresna Bayu Mahaputera** Indonesia , Universitas Jember

3002-

**Jojob Widodo Soetjipto** Indonesia , Magister Teknik Sipil, Fakultas Teknik, Universitas Jember, Jember, Indonesia

3015

**Erno Widayanto** Indonesia , Magister Teknik Sipil, Fakultas Teknik, Universitas Jember, Jember, Indonesia

Abstract : 3

DOI : 10.59188/eduvest.v6i2.52189

Metagenomics as a Diagnostic Method for Identifying Microbiota Profiles in Diarrhea Cases

**Rahmat Apipi** Indonesia , Universitas Indonesia, Indonesia

1501-1513

**Linda Erlina** Indonesia , Universitas Indonesia, Indonesia

Abstract : 1

PDF

DOI : 10.59188/eduvest.v6i2.52490

The Effect of Capital Strengthening, Corporate Governance Implementation, and Risk Management on Financial Performance and its Implications for Business Sustainability at PT BPR Rama Ganda Bogor

Linda Sri Rezeki Indonesia , Universitas Ekuitas Indonesia

1292-1301

Cecep Taofiqurrochman Indonesia , Universitas Ekuitas Indonesia

Tatang S Herisman Indonesia , Universitas Ekuitas Indonesia

Abstract : 6

PDF

DOI : 10.59188/eduvest.v6i2.52805

The Emergence of Ideologies in the Post-Arab-Israeli Conflict: A Realist and Genealogical Geopolitical Analysis

Cahaya Mulyani Sakti Indonesia , Universitas Indonesia

1711-1730

Mohammad Izdiyan Muttaqin Indonesia , Universitas Indonesia

Hendra Kurniawan Indonesia , Universitas Indonesia

Abstract : 3

PDF

DOI : 10.59188/eduvest.v6i2.52308

Explainable Ensemble Learning for Transparent and Efficient Zakat Scholarship Selection

Khalid Jasir Indonesia , Universitas Indonesia

3158-3176

Nadya Safitri Indonesia , Universitas Indonesia

Sofian Lusa Indonesia , Universitas Indonesia

Dana Indra Sensuse Indonesia , Universitas Indonesia

Abstract : 6

PDF

DOI : 10.59188/eduvest.v6i2.52639

Feasibility Analysis of Converting Diesel Power Plants (PLTD) to Solar Power Plants (PLTS) on Seira Island in Order to Reduce Electricity Supply Costs

Syariffuddin Achmad Indonesia , Universitas Terbuka, Indonesia

1817-1835

Lela Nurlaela Wati Indonesia , Universitas Terbuka, Indonesia

Ira Geraldin Indonesia , Universitas Terbuka

Abstract : 8

PDF

DOI : 10.59188/eduvest.v6i2.52903

The Influence of Influencer Marketing and Content Marketing on Rucas. Co Purchasing Decisions: The Mediating Role of Customer Engagement and Moderating Role of Fomo (A Study of Generation Z)

Victor Anugrah Sirait Indonesia , Universitas Kristen Satya Wacana

Yenny Purwati Indonesia , Universitas Kristen Satya Wacana

Abstract : 18

PDF

DOI : 10.59188/eduvest.v6i2.52156

Gender Analysis of Prostitution Localization Closure Policy in Jember Regency

Friscilia Vita Anggraeni Indonesia , Universitas Muhammadiyah Jember, Indonesia

1565-1576

Emy Kholifah Rachmaningsih Indonesia , Universitas Muhammadiyah Jember, Indonesia

Abstract : 8

PDF

DOI : 10.59188/eduvest.v6i2.52484

The Relationship Between Meteorological and Dengue Fever Prevalence at Tanjung Priok Health Center, North Jakarta (2018-2014): An Islamic Perspective

Zahwa Aisya Nabila Ajedo Indonesia , Universitas Yarsi

1859-1876

Ambar Hardjanti Indonesia , Universitas Yarsi

Afrizal Tw Indonesia , Universitas Yarsi

Abstract : 3

PDF

DOI : 10.59188/eduvest.v6i2.52797

Financial Inclusion and Laku Pandai Program on Individual Bank Profitability: Case Study in Indonesia

Ruth Margaretha Setiawan Indonesia , Universitas Indonesia

1577-1586

Chaikal Nuryakin Indonesia , Universitas Indonesia

Abstract : 1

PDF

DOI : 10.59188/eduvest.v6i2.52302

Criminal Liability of Participants in the Commission of the Crime of Fraud (A Study of Decision Number: 46/Pid.B/2021 PN MGG)

**Try Romanto Wibisono** Indonesia , Universitas Islam Malang, Indonesia

1478-1491

Abstract : 3

DOI : 10.59188/eduvest.v6i2.52597

Modification of Carbon Felt With Carbon Nanotubes as Electrodes for Microbial Fuel Cells

**Nur Fadilah Kahfi** Indonesia , Institut Teknologi Indonesia

2988-3001

**Muhammad Muhibuddin Mufqi** Indonesia , Institut Teknologi Indonesia

Abstract : 6

DOI : 10.59188/eduvest.v6i2.52893

The Relationship between Self Efficacy and Family Social Support on the Psychological Well-Being of Honorary Teachers

**Yoana Elvita Fetriana** Indonesia , Fakultas Psikologi, Universitas Katolik Soegijapranata Semarang

2000-2008

**Lucia Hernawati** Indonesia , Fakultas Psikologi, Universitas Katolik Soegijapranata Semarang

Abstract : 9

DOI : 10.59188/eduvest.v6i2.50773

Application of Design Thinking in the Development of the Beres.in Application: an Integrated Solution for Moving and Home Cleaning Services

**Ainiyya Hana Pathi Seruni** Indonesia , IPB University, Indonesia

1433-1444

**Yulia Suryadi** Indonesia , IPB University, Indonesia**Gindu Siswo** Indonesia , IPB University, Indonesia

Abstract : 4

DOI : 10.59188/eduvest.v6i2.52470

The Impact of N02 and S02 Pollutants on Respiratory Diseases: A Case Study of Indonesia

**Reizka Asadelia Rafmawan** Indonesia , Universitas Indonesia

1342-1359

Abstract : 4

DOI : 10.59188/eduvest.v6i2.52788

Implementation of Problem-Based Learning Model Assisted by Augmented Reality to Improve Learning Outcomes of MAN 2 Tidore Kepulauan Class XI Students on Newton's Second Law

 **Asmita Basir** Indonesia , Program Studi Pendidikan Fisika, FKIP Universitas Khairun

 3102-3112

 **Nurdin Abdul Rahman** Indonesia , Universitas Khairun, Indonesia

 **Mardia Hi Rahman** Indonesia , Universitas Khairun, Indonesia

 Abstract : 2

 DOI : 10.59188/eduvest.v6i2.52955

Implementation of Qual2Kw and MCDA in Formulating Sustainable River Water Quality Standard Compliance Program Policies: A Case Study of the Cileungsi River in Bogor Regency

 **Muhamad Komarudin** Indonesia , Graduate School of Natural Resources and Environmental Management Science, IPB University

 1731-1740

 **Anas M Fauzi** Indonesia , Department of Agricultural Industrial Technology, Faculty of Agricultural Technology IPB

 **Yanuar J Purwanto** Indonesia , Center for Regional Systems Analysis, Planning and Development (CrestPent) IPB University

 **Hartrisari Hardjomidjojo** Indonesia , Department of Agricultural Industrial Technology, Faculty of Agricultural Technology IPB

 **Budi Kurniawan** Indonesia , National Research and Innovation Agency

 Abstract : 2

 DOI : 10.59188/eduvest.v6i2.52288

Evaluation of Sa210 Grade A1 Steel Degradation Through Hardness and Microstructural Changes After High Temperature Exposure

 **Yayang Rusdiana** Indonesia , Universitas Indonesia, Indonesia

 3113-3127

 **Rio Pudjidarma Santoso** Indonesia , Universitas Indonesia, Indonesia

 **Winarto Winarto** Indonesia , Universitas Indonesia, Indonesia

 Abstract : 5

 DOI : 10.59188/eduvest.v6i2.52584

The Impact of Operational Efficiency and Risk Management on Good Corporate Governance and its Implications on Company Profitability as a Moderating Variable at BPR Artatama Sejahtera, South Jakarta

 **Murni Ardina Pandiangan** Indonesia , Universitas Ekuitas Indonesia, Indonesia

Critical Analysis of Toll Road Investment Through a Systematic Literature Review Approach: Trends, Challenges, and Opportunities

Rio Rizqi Septiawan*, Oei Fuk Jin

Universitas Tarumanagara, Indonesia

Email: riorizkiseptiawan@gmail.com*, fukjin.untar@gmail.com

ABSTRACT

Toll Road Investment is a key strategy in transportation infrastructure development aimed at improving connectivity, logistics efficiency, and economic growth. However, financing complexity, regulatory uncertainty, and socio-political risk dynamics make this investment face serious challenges. Twenty scientific articles published in Q1–Q3 between 2019–2024 were evaluated based on their study focus, key findings, geographic context, and journal rankings. The research results indicate that toll road investment trends are undergoing a significant transformation, marked by the dominance of Public–Private Partnership (PPP) schemes, the integration of digital technology, and a lifecycle-based management approach. Meanwhile, the key challenges identified include a weak regulatory framework, financial risks, limited government capacity, and minimal stakeholder involvement. Conversely, opportunities can be leveraged through strengthening project governance, utilizing innovative contract models, and adopting risk- and sustainability-based performance evaluation systems. These findings are expected to provide theoretical and practical contributions to academics, policymakers, and investors in designing more adaptive and sustainable toll road investment strategies in the future

KEYWORDS Toll Road Investment; Public-Private Partnership; Infrastructure Risk; SLR; Transportation Policy.

This work is licensed under a Creative Commons Attribution-ShareAlike 4.0 International

INTRODUCTION

Investment in toll road infrastructure has become a strategic element of economic development in various countries, including Indonesia. Toll roads not only serve as high-speed transportation routes but also act as drivers of regional growth by improving connectivity, logistics efficiency, and inter-regional accessibility. In the context of national development, toll roads play a crucial role in reducing distribution costs, encouraging population mobility, and opening access to new economic centers that were previously geographically isolated. Therefore, toll road development is a top priority in sustainable infrastructure policies.

However, the implementation of toll road projects is not without complex, multidimensional challenges. Large financing requirements, slow land acquisition processes that risk triggering social conflict, and the potential for technical failures during construction and operational phases are often major obstacles. Furthermore, limited government fiscal capacity and regulatory uncertainty add another layer of challenges that hinder the realization of toll road projects on a national scale (Fauzan, Kuswanto, & Utomo, 2023).

Investment in toll road projects, therefore, requires a financing approach that is more adaptive to long-term risks, cash flow volatility, and political and institutional dynamics. One approach that has seen significant growth is the Public–Private Partnership (PPP), where the government and the private sector share responsibilities, risks, and benefits within a single

contractual framework. Through this scheme, the government can alleviate budgetary pressures, while private investors gain participation in public infrastructure development. As the demand for toll road investment increases, project financing and governance models are also undergoing transformation. A bibliometric study by Azarian et al. (2024) noted a surge in scholarly interest in infrastructure investment issues within the PPP context, particularly those related to regulation, risk management, and sustainability.

Various studies have shown that the success of toll road investment through PPPs is largely determined by institutional design and flexible financing structures. Castelblanco et al. (2024) developed a dynamic, project lifecycle-based model to manage financial aspects more responsively. Endo et al. (2021) emphasized that achieving financial close in toll road projects is significantly influenced by legal certainty, institutional support, and government guarantees. Meanwhile, Fatima et al. (2024) proposed a risk-based approach to assess and manage the overall performance of PPP projects.

Although PPPs are seen as capable of accelerating infrastructure development, various challenges remain in practice. Inequality in risk sharing (Li et al., 2024), political interference leading to premature contract termination (Tang et al., 2023), and a lack of transparency in procurement processes (Oliveros-Romero et al., 2023) are recurring issues. In the Indonesian context, the main problems lie in weak public sector governance, limited institutional capacity, and ineffective inter-agency coordination (Rohman et al., 2021; Winata et al., 2023). Failure to fully engage stakeholders at every stage of the project is also a serious obstacle (Uddin et al., 2023).

On the other hand, the complexity of toll road projects in the modern era demands innovation in management systems. Recent literature proposes the integration of digital technology and information systems based on the infrastructure lifecycle. Huang et al. (2024) developed a digital framework for toll road asset management that can improve decision-making. The transformation to an electronic toll system is also considered crucial for strengthening efficiency and accountability, as explained by Shahrier et al. (2023). From an environmental perspective, green tollway strategies are beginning to be developed to address the challenges of reducing emissions and achieving sustainability targets (Shang et al., 2024).

Although numerous studies have addressed various aspects of PPP-based toll road investment, most remain sector-specific and have not comprehensively integrated the three main dimensions—trends, challenges, and opportunities. Most available analyses focus on technical or financial aspects in isolation, without fully considering policy and institutional dynamics. This gap underpins the development of this study. Using a Systematic Literature Review (SLR) approach, this article offers a critical analysis of the dynamics of toll road investment over the past five years (2019–2024), presenting a thematic synthesis based on empirical evidence and cross-disciplinary conceptual reflection.

This research aims to identify and analyze current trends in toll road investment based on scientific literature published in the past five years; to examine and classify the main challenges faced in its implementation, spanning regulatory, financial, and institutional aspects; and to explore and evaluate emerging strategic opportunities within toll road investment schemes, including the roles of technology, financial innovation, and policy reform. By integrating these three critical dimensions through a systematic review, this study is expected to provide significant theoretical and practical contributions. It offers academics a Critical Analysis of Toll Road Investment Through A Systematic Literature Review Approach: Trends, Challenges, and Opportunities

synthesized, cross-disciplinary understanding of the field’s evolution, while equipping policymakers and investors with an evidence-based framework to design more adaptive, sustainable, and risk-informed investment strategies. Ultimately, this work addresses a notable literature gap by moving beyond isolated, sector-specific analyses toward a holistic view essential for navigating the complex future of transportation infrastructure development.

METHOD

This study uses a Systematic Literature Review (SLR) approach as the primary method to identify, critically assess, and synthesize relevant scientific literature on toll road investment. SLR was chosen because it provides a structured, transparent, and replicable methodological framework, enabling comprehensive, evidence-based conclusions to be drawn. This method is relevant because the theme of toll road investment is multidimensional—encompassing policy, financial, technical, and social aspects—and is spread across various cross-disciplinary studies.

Figure 1. Research Method Flowchart

Source: Author's analysis (2025)

Research Protocol and Search Strategy

Before beginning the data collection and analysis process, the author developed a research protocol that served as the primary guideline for this SLR. This protocol included the study objectives, primary research questions, literature search strategy, and inclusion and exclusion criteria for article selection. The protocol was designed to ensure a systematic literature review process free from selection bias. The primary objective of this study is to provide a comprehensive overview of development trends, critical challenges, and strategic opportunities in toll road investment based on academic findings from the past five years. The primary research question that underpinned the development and screening of the literature is as follows:

“What are the main trends, challenges, and opportunities in toll road investment as reflected in the scientific literature indexed in Q1–Q4 over the past five years?”

Based on this question, the search strategy focused on accommodating various perspectives in the literature, including empirical, theoretical, and conceptual studies. The literature was collected through exploration of four credible international scientific databases: Scopus, Web of Science (WoS), ScienceDirect, and Google Scholar. These four databases were selected for their multidisciplinary coverage, accessibility to reputable journals, and ease of reference management. The search process was conducted between March and April 2025.

Search keywords were determined through internal discussions and a pilot search. The keywords used were a combination of technical and practical terms reflecting the three main focuses of the study: trends, challenges, and opportunities. These keywords included: toll road investment, highway investment, infrastructure finance, project finance, public–private partnership, infrastructure development, transportation infrastructure, investment challenges, investment opportunities, emerging trends, and risk management. Boolean operators such as AND, OR, and NOT were used to broaden or narrow the scope of search results. For example, combinations such as “PPP” AND “toll road” AND “risk management” were used to identify literature focusing on risk management in public–private partnership-based toll road projects.

Study Inclusion and Exclusion Criteria

To ensure that the literature obtained was relevant to the study’s focus and objectives, strict inclusion and exclusion criteria were established. These criteria served as the basis for the initial and final selection of all articles identified. The criteria are listed in Table 1 below:

Table 1. Inclusion and Exclusion Criteria

Criteria	Information
Inclusion	Published in 2019–2024
	Peer-reviewed scientific journal
	Focus on toll road investment or PPP schemes for transportation infrastructure
	Available in English
	Fully accessible in PDF format
Exclusion	The article is only an abstract
	Non-scientific reports, news, or conference proceedings
	The study is not related to the toll road/transportation infrastructure sector.
	Redundancy or duplication of articles

Source: Developed by the author based on the SLR protocol (2025)

Literature Selection Process The literature selection process is carried out in the following stages:

Figure 2. PRISMA process flow diagram literature sampling

Source: Adapted from the PRISMA 2020 guidelines by the author (2025)

The process details are as follows

a. Initial Identification

The search was conducted in four major academic databases: Scopus, Web of Science, ScienceDirect, and Google Scholar. Using a combination of relevant keywords, 112 initially relevant scientific articles were identified.

b. Duplicate Filtering

Duplicate articles between databases were removed, resulting in 102 unique documents for further selection.

c. Title and Abstract Selection

An evaluation of titles and abstracts was conducted to assess their relevance to the study's main topic, namely toll road investment in the context of public–private partnerships and risk management. This stage resulted in 54 articles deemed relevant.

d. Full-text Review

Next, a comprehensive review of the full content of the articles was conducted to assess methodological completeness, argument quality, and topic relevance. From this stage, 30 articles were selected for final evaluation.

e. Final Evaluation (Eligibility Check)

Based on predetermined inclusion–exclusion criteria, such as publication period (2019–2024), journal classification (Q1–Q3), and substance suitability, 20 scientific articles that were most relevant and met high-quality requirements were selected for analysis in this study.

Data Analysis After the selected articles were collected, a data extraction process was conducted, covering the following elements: author name and year of publication, article title, main focus of the study, main findings, geographic context, and journal ranking. All data were compiled in a thematic synthesis table format (see Table 2 in the results section). Next,

narrative synthesis and thematic analysis were conducted to group the findings into three main themes: a. Trends: general patterns or changes in investment and project management approaches, b. Challenges: recurring structural and technical barriers, c. Opportunities: potential for future development based on best practices or current innovations. This analysis aims to reveal the contribution of each study to the development of knowledge and practice in the field of toll road investment, while also explaining the relationships between variables that frequently appear in the literature.

RESULT AND DISCUSSION

Based on the synthesis results of 20 scientific journals analyzed, several important findings were identified, which can generally be grouped into three broad categories: (1) trends in toll road investment practices and approaches, (2) key challenges faced in their implementation, and (3) strategic opportunities that can be optimized in the future. Each category was analyzed thematically based on the study focus of each article.

Trends in Toll Road Investment

Global trends in toll road investment indicate a paradigm shift from traditional financing that relies on the state budget toward a more flexible and risk-oriented Public–Private Partnership (PPP) scheme. Several journals emphasize that PPPs enable time and cost efficiencies (Winata & Gultom, 2023) and expand private participation in long-term infrastructure management (Castelblanco et al., 2024). Furthermore, studies by Esperilla-Niño-de-Guzmán et al. (2023) and Azarian et al. (2024) show that the evolution of PPPs is influenced by institutional factors, regulatory developments, and the adoption of sustainability principles.

Another important trend is the adoption of digitalization and smart technology in toll road asset management. Huang et al. (2024) and Li et al. (2024) demonstrate that digitalization of the infrastructure lifecycle and the use of multi-objective evaluation systems for smart highways are becoming the new norm in project development. A shift toward greater use of life-cycle financing models and adaptive contracts such as SBOT and DBFOM has also been identified, as discussed by Castelblanco (2024) and Winata & Gultom (2023). These contracts are considered more responsive to operational uncertainty and traffic dynamics.

Challenges in Toll Road Investment

Despite significant progress, toll road investment through PPP schemes continues to face substantial systemic and multidimensional challenges. Studies by Nguyen & Tung (2023) and Endo et al. (2021) revealed that regulatory uncertainty, weak government institutional capacity, and disintegrated decision-making processes are key obstacles to smooth project implementation. Financial close issues resulting from low project credibility and suboptimal risk mitigation schemes are also common—particularly in developing countries such as Indonesia. This is confirmed by findings from Endo, Gianoli & Edelenbos (2021) and Rohman et al. (2021), which highlight the lack of institutional support and limited government monitoring mechanisms.

Additionally, studies by Wibowo et al. (2012) and Fatima et al. (2024) identify financial, political, and legal risks as major barriers in BOT and DBFOM projects. Structural political risks, such as public pressure and central government intervention, may even lead to premature termination of PPP contracts (Tang et al., 2023). Another persistent challenge is uneven stakeholder involvement and lack of community participation. Uddin et al. (2023) show that

Critical Analysis of Toll Road Investment Through A Systematic Literature Review Approach:
Trends, Challenges, and Opportunities

differences in stakeholder network structures across public, private, and PPP projects can affect the quality of project outcomes.

Opportunities in Toll Road Investment

Despite the high complexity of toll road projects, the reviewed literature also reveals several strategic opportunities that can enhance investment effectiveness and sustainability. First, strengthening institutional frameworks and project governance has emerged as essential for success. Research by Winata & Gultom (2023) and Guevara et al. (2022) suggests that establishing a collaborative sponsorship network (SPV) and a clear incentive mechanism can increase investor confidence and project sustainability.

Second, there is significant potential in implementing a risk-based approach and integrated performance measurement. Fatima et al. (2024) developed a PPP performance assessment framework based on 16 performance indicators and 10 key risk types, providing a practical guide for objective and comprehensive infrastructure evaluation.

Third, innovations based on digital technology—such as electronic toll collection, real-time sensor systems, and digital twins for asset maintenance—offer opportunities to achieve high efficiency in the operation and maintenance phases (Shahrier et al., 2023; Huang et al., 2024).

Fourth, toll road projects can also contribute to decarbonization and environmental efficiency targets. Shang et al. (2024) introduced the concept of a green tollway based on the government's post-BOT operational strategy, which considers carbon emissions as an efficiency parameter. Finally, evaluative approaches that integrate social and spatial dimensions require further development. Oliveros-Romero & Aibinu (2023) emphasize the importance of ex-post evaluation from multiple stakeholder perspectives, particularly in assessing socio-economic impacts such as urban segregation and tariff equity.

Critical Discussion

Findings from the 20 journals analyzed indicate that toll road investment through Public–Private Partnership (PPP) schemes is a promising approach—though still fraught with challenges. The literature generally agrees that digitalization, lifecycle-based financial models, and heightened awareness of sustainability represent leading trends in toll road infrastructure development. However, the adoption of these trends remains uneven, as many countries face institutional constraints, regulatory uncertainty, and high political and social risks.

A major criticism evident in the literature is the unequal geographical distribution of studies. Most research focuses on developing countries in Asia and Latin America, such as Indonesia, Vietnam, Colombia, and China. Meanwhile, regions such as Sub-Saharan Africa, Eastern Europe, and small Pacific nations are virtually absent from the global discourse, suggesting a significant geographic gap.

Methodologically, the studies analyzed employ diverse approaches—ranging from qualitative analyses and mathematical modeling to bibliometric reviews. This diversity enriches perspectives but also poses challenges in generating cross-country generalizations due to the absence of a uniform analytical framework. Thematically, while many studies emphasize financial and political risks (Wibowo et al., 2012; Tang et al., 2023), few explicitly address social and environmental risks, such as resistance to land acquisition or post-construction spatial impacts (Oliveros-Romero & Aibinu, 2023). This indicates that the socio-ecological

dimensions of toll road investment remain underexplored, despite their critical importance for long-term sustainability.

The implications of these findings underscore the need for a cross-sectoral and multi-actor approach in toll road project planning. Governments, investors, and communities should be engaged in more participatory and adaptive forms of governance. Furthermore, performance-based evaluation systems—such as the model proposed by Fatima et al. (2024)—are essential to ensure that project success is measured not only in financial terms but also through social and environmental outcomes.

Theoretically, this synthesis enriches understanding of the dynamics of infrastructure investment in developing countries and promotes the development of a more inclusive and risk-responsive theory of PPP governance. Practically, the results of this study can inform policymakers and investors in designing investment policies that are more contextual and adaptable to global challenges.

Study Synthesis Table

The following table summarizes the 20 scientific articles reviewed in this study, including author details, main focus, and the contribution of the findings to a comprehensive understanding of the toll road investment landscape..

Source: Author's synthesis of data from 20 selected articles (2019–2024)

This synthesis not only serves as a foundation for understanding toll road investment trends, challenges, and opportunities, but also serves as a basis for strategic decision-making in the transportation infrastructure sector. These systematically reviewed findings are expected to provide a useful reference for policymakers, investors, and practitioners in formulating sustainable and adaptive toll road development strategies to address global dynamics. Furthermore, this synthesis can also serve as a starting point for further empirical and more Critical Analysis of Toll Road Investment Through A Systematic Literature Review Approach: Trends, Challenges, and Opportunities

contextual studies, particularly those focusing on cross-country comparative approaches, public policy evaluations, or the development of risk- and sustainability-based investment performance measurement frameworks.

CONCLUSION

Thematic analysis of the literature shows a clear shift in toll road investment toward collaborative, cost-efficient, sustainable, and digitally enabled models, with PPPs increasingly dominant for flexible financing and management. This trend is accompanied by technology-based evaluation systems and end-to-end lifecycle digitalization that enhance operational efficiency. However, material constraints persist—regulatory frictions, institutional capacity gaps, political uncertainty, suboptimal stakeholder engagement, and significant financial or legal risks that impede financial close and long-term viability. These challenges are compounded by uneven risk allocation and weak public oversight, signaling the need for institutional reform and policy harmonization.

Even so, actionable opportunities remain through stronger project governance, lifecycle contract structures such as DBFOM and SBOT, and performance evaluation systems tightly integrated with risk management—further amplified by advancing technologies and rising sustainability expectations. Accordingly, future research and practice should widen geographic coverage beyond Asia and Latin America to include underexplored regions (e.g., Sub-Saharan Africa and parts of Eastern Europe) through comparative, cross-country studies. Scholars should also deepen inquiry into social–environmental dimensions—long-term social impacts, spatial equity, and community resistance—using multidisciplinary methods. There is a need to develop integrated, risk- and sustainability-based evaluation frameworks with indicators spanning economic, social, and environmental outcomes, multidimensional risks, and long-term public value. Moreover, public–private–civil society collaboration must be operationalized under transparent, stable policy regimes while scaling digital capabilities—such as real-time evaluation, digital twins for maintenance, and AI-driven tariffing—to improve efficiency, reduce costs, and extend asset life. Overall, success depends less on the financing scheme itself and more on the coherent alignment of institutions, regulation, technology, and stakeholder commitment so that strategies remain effective, sustainable, and responsive to evolving global dynamics.
